

PET/PETE #1 - transparent

| YES | NO |
|--|--|
| <p>Clear/transparent, thermoform Bottles that don't normally go into mixed recycling. Clean with #1 PET/PETE</p> <p>FWR prefers food grade packaging (but will be ok with some non-food grade if it comes in and we don't want to reject)</p> | <p>Opaque - not see-thru No dirty items</p> |
| <p>Clamshells, cups, tubs, lids, boxes trays, egg cartons that don't belong in mixed recycling (but if people bring them in we can accept, but will give instructions) - the tub definition has been messed with so I understand if folks get confused at Metro new tub def.</p> | |
|  |  |
|  <p>cups</p> | |

| | |

| | |

PET/PETE #1 - small bottles

| YES | NO |
|---|--|
| <p>Bottles that don't normally go into mixed recycling. (less than 6 ounces). Labels are OK but remove the caps. Items must be clean with visible #1 PET/PETE code</p>  <p>small metal on the mouth of the bottle is OK</p> | <p>No dirty items. No items which contained hazardous chemicals (oils)</p> |
| <p>Medication bottles, small shampoo and hygiene bottles</p>  | <p>No colored #1 trays and lids,</p> |

PP - polypropylene #5

| YES | NO |
|--|---|
| Clean with no food residue and a visible #5 PP resin code. | No dirty or moldy items No missing resin codes |
| Orange medication bottles | |
|  <p>Example #5 items</p>  | |
| Storage bins | |
| <p>DVD cases with plastic covering and paper inserts removed</p>  | <p>No DVD cases with plastic and paper</p>  |
| Tofu containers with a small amount of plastic label stuck around the edges is fine. | No containers with mixed types of plastic: when the lid is a different resin code from the bottom, they must be separated. |

Rigid Planter pots can be left curbside, however many people don't know this, so we can take them as long as they have a #5 resin code

Note: Many nurseries take planter pots for reuse, ask them.

No dirty pots.

No crinkly plant pots that are crushed easily . These are often #6 plastic and can go to Agilyx.

Be sure to check every number. Some items look similar but are different, see below. The #1 PETE bottle is more clear and the #5 PP is more cloudy. Both are medication bottles.
